School supplies and encouragement

Retrospective terms of reference

Wednesday, 16 February 2022 | Lycée de Buea | Buea, Cameroon

Why we chose this project

We chose Lycée de Buea after hearing that its existing prayer or Bible club needed encouragement. We understood that its activities had slowed and wanted to offer Christian encouragement and practical support. Our purpose was not simply to visit: we wanted our team's time and resources to offer something useful to the children, both through the materials we brought and through the care we showed.

The intended activity combined encouragement with a donation of school supplies and other useful items. It was a separate school visit, not the August back-to-school project.

Who and what the visit was for

The visit was for students at Lycée de Buea. The intended materials were school bags, exercise books, pens, mathematical sets, buckets and utensils. We do not specify a target headcount or equal packages because those details are not established in this account.

Preparation, delivery and responsibilities

Our team visited the school beforehand and obtained permission. The approach was to meet the students in a classroom, pray, read the Bible, encourage them and distribute the materials. Our team arranged the visit and brought the supplies; the school's permission made the classroom visit possible. No individual staff assignments are attributed without a supporting record.

Sharing the love of Jesus is part of our purpose. Assistance was available regardless of whether a student participated in prayer or worship. Children's names and identifying photographs are excluded from this document set.

Scope and resources

The planned February cleanup did not take place. The donation and encouragement visit went ahead.

We sent 215,000 FCFA for the visit. Withdrawal was recalled at about 5,000 FCFA and transport at 10,000-15,000 FCFA, with the balance used for supplies. The companion report sets out the funding and recalled operating costs. Exact purchase prices and the closing balance are not established.

Document basis: Prepared some time after the project was carried out, using our team's account and available working files. This retrospective terms of reference records the purpose and intended approach; it is not an original pre-project authorization.
