School visit in Buea

Retrospective terms of reference | 11 May 2022 | ADA/2022/004

Why we made this visit

Our school outreach is a practical expression of our Christian commitment to care for children and young people. Alongside material support, we value time spent listening, encouraging students and recognising the effort involved in their education. The May school visit brought this purpose into a school setting in Buea.

Who and where

Our visit took place on Wednesday, 11 May 2022, at the school remembered as Lycée de Buea. Students were the intended participants. The available account does not establish their number, ages or the size of our team.

Purpose and scope

The earlier project account describes a school visit with encouragement and mentorship, food and refreshments, and educational materials or handouts. Its intended purpose was to support students through both practical provision and personal encouragement. This document does not establish a measured learning outcome or an ongoing formal school partnership.

Organisation and responsibilities

Our usual school-outreach approach involves community inquiries, contact with school leadership and coordination with teachers before a visit. Our team organises supplies and transport, engages with students and works with school staff during delivery. This is our established approach, not a verified minute-by-minute record of the May visit.

Resources

The earlier written budget was 180,000 FCFA. The reconstructed allocation comprises 165,000 FCFA in cash-cost categories and a separate 15,000 FCFA in-kind refreshments value. This is a reconstructed allocation, not proof that 180,000 FCFA was transferred in cash. The companion report contains every category and its financial basis.

Faith dignity and accountability

Our faith motivates this service; assistance is available regardless of participation in prayer or worship. Our usual practice is to reflect together after a project on timing, delivery and improvements. No identifying student details or photographs are included in this document.

Prepared some time after the project was carried out, using the earlier school-visit documents and subsequent review discussion. This retrospective terms of reference did not authorise the 2022 visit.
