Hospital Visit — Prenatal Care Kits

Field	Details
Reference	ADA/2025/004
Project Title	Hospital Visit — Prenatal Care Kits
Location	Sub-Divisional Hospital (CMA) Muea-Buea, South-West Region, Cameroon
Duration	July 26 – August 5, 2025 (10 days, multiple visits)
Beneficiaries	25 new mothers
Budget	$1,800 USD (~1,080,000 CFA)
Status	COMPLETED

---

1. Background

The Apoti Development Association (ADA) is a faith-based organization empowering vulnerable communities in Cameroon since 2021. This project represents ADA's first hospital-based maternal care program, establishing a partnership with the Sub-Divisional Hospital (CMA) Muea-Buea to support new mothers who cannot afford basic supplies for their newborns.

The hospital identified the most vulnerable mothers — those unable to purchase essential items for their first weeks with a newborn — as the target beneficiaries.

2. Objectives

1. Provide 25 new mothers with comprehensive maternal care kits containing essential baby supplies
2. Establish a working partnership with CMA Muea-Buea hospital and nursing staff
3. Ensure dignified, personal delivery of kits to mothers in the hospital setting
4. Demonstrate ADA's commitment to maternal and infant welfare

3. Scope of Work

3.1 Kit Composition

Each branded red bucket (with ADA logo sticker: *"The Joy of the More Vulnerable is our Priority"*) contains:

- Diapers (Softcare/Floom brands)
- Baby clothes (onesie, undershirts, shoes)
- Soap and hygiene items
- Towels and blankets

3.2 Activities

- Coordinate with CMA Muea-Buea hospital administration and nursing staff
- Procure and assemble 25 maternal care kits
- Conduct multiple hospital visits over 10 days to distribute kits
- Personally present kits to mothers holding their newborns

- Document activities through photography

3.3 Team Composition

- 5 ADA volunteers in branded green-and-white uniforms with green berets
- Hospital nursing staff (coordination and beneficiary identification)

4. Expected Outcomes

- 25 new mothers receive complete branded care kits
- Functional partnership established with government hospital staff
- Dignified, personal presentation of kits to each mother
- Photographic documentation of the program
- Foundation laid for future hospital-based maternal care initiatives

5. Budget Summary

Category	Amount (CFA)
Kit materials (buckets, diapers, clothes, hygiene, towels)	800,000
Branding	20,000
Transport	80,000
Volunteer uniforms	50,000
Communication/coordination	30,000
Documentation	20,000
Contingency	80,000
Total	**1,080,000**

USD Equivalent: ~$1,800

6. Reporting

A completion report and financial statement will be produced upon project conclusion, including photographic evidence and beneficiary count verification.
