Project Completion Report: Campus Environmental Cleanup

Field	Details
Reference	ADA/2025/005
Project Title	Campus Environmental Cleanup
Location	Buea, South-West Region, Cameroon (Student Campus)
Date of Activity	August 4, 2025
Status	COMPLETED
Prepared by	Apoti Development Association (ADA)

1. Executive Summary

On August 4, 2025, the Apoti Development Association (ADA) conducted a single-day environmental cleanup at a student campus in Buea, South-West Region, Cameroon. A team of 8 ADA volunteers, wearing ADA uniforms and red rubber gloves, cleaned the campus grounds, collected waste, and promoted environmental responsibility among the student population. This activity extended ADA's proven cleanup model from city streets to educational institutions.

2. Objectives and Achievement

Objective	Status
Clean campus grounds and collect waste	✅ Achieved
Deploy ADA-branded trash bins	✅ Achieved
Raise environmental awareness among students	✅ Achieved
Extend cleanup model to educational institutions	✅ Achieved

3. Activities Conducted

Preparation

- Coordinated with campus administration for access and logistics
- Secured equipment (partially reused from May 2025 cleanup)
- Organized volunteer team and transport

Implementation (August 4, 2025)

- 8 ADA volunteers deployed in ADA uniforms and red rubber gloves
- Campus grounds systematically cleaned
- Waste collected and properly disposed via hired truck
- ADA-branded black trash bins placed on campus, labeled: *"APOTI DEVELOPMENT ASSOCIATION — COMMUNITY SERVICE: CARING FOR OUR ENVIRONMENT"*

- Students engaged on environmental responsibility and civic duty
- Activities documented (photos/video)

4. Beneficiaries

Category	Number
Direct participants (ADA volunteers)	8
Indirect beneficiaries (students)	~500

5. Outcomes and Impact

- **Campus cleaned:** Grounds cleared of waste and debris
- **Sustained impact:** ADA-branded bins left on campus for ongoing use
- **Awareness raised:** Students exposed to environmental responsibility messaging
- **Model extended:** Successfully demonstrated that ADA's cleanup approach works in educational settings, not just city streets
- **Volunteer visibility:** Team in protective gear and branded uniforms reinforced ADA's professional community service image

6. Budget Performance

Item	Budgeted (CFA)	Actual (CFA)
Total	180,000	170,000
USD equivalent	**$300**	**$283**

The project came in 10,000 CFA ($17) under budget, primarily due to equipment reuse from the May 2025 cleanup and efficient logistics coordination.

7. Lessons Learned

- Reusing equipment from previous cleanups significantly reduces costs
- Campus administration cooperation is essential for smooth execution
- Student populations are receptive to environmental messaging when paired with visible action
- Branded bins create lasting presence beyond the single-day activity

8. Recommendations

- Continue extending cleanup activities to other educational institutions in Buea
- Develop student volunteer partnerships for future campus cleanups
- Track bin usage and condition for maintenance planning
- Consider establishing a campus environmental ambassador program

9. Conclusion

The Campus Environmental Cleanup (ADA/2025/005) was successfully completed on August 4, 2025. All objectives were met within budget. This project marks ADA's successful expansion of its environmental cleanup model from city streets to educational institutions, reaching approximately 500 students with civic duty and environmental responsibility messaging.
