1. Background

The Apoti Development Association (ADA) works to empower vulnerable communities in Cameroon through faith-based programs. Widows in Buea face significant economic hardship, often lacking access to basic food supplies, household essentials, and financial resources. This project represents ADA's most comprehensive single-day outreach, combining material aid with financial assistance and emotional support to establish a multi-pronged intervention model.

2. Objectives

1. Provide immediate food security to 15 identified widows through distribution of rice and cooking oil.
2. Supply essential household items (handbags, plastic buckets with supplies) to improve daily living conditions.
3. Deliver direct financial assistance via cash envelopes to address individual urgent needs.
4. Foster community connection and emotional support through a gathering with prayer and companionship.
5. Establish ADA's multi-pronged outreach model combining material, financial, and emotional support.

3. Scope of Activities

3.1 Community Gathering

- Organize a central gathering venue in Buea for all 15 beneficiaries.

Each beneficiary receives:

- 1 bag of rice (25kg Thai rice)
