Financial Report

Women's Day Widow Outreach

FIELD	DETAILS
Reference	ADA/2022/003
Project title	Women's Day Widow Outreach
Period	March 2022 (owner recollection)
Financial status	Owner-recalled amounts; not independently reconciled

Retrospective review copy (November 2026): This draft reflects the owner's recollection of the project focus and approximate funding flow. It is not an independently verified completion or expenditure record.

Owner-recalled funding flow

The owner recalls that about 220,000 CFA francs was sent for the outreach. About 5,000 CFA francs was used for withdrawal costs and about 10,000 CFA francs for transportation, leaving an estimated 205,000 CFA francs for supplies. These are approximate recollections and have not been checked against receipts, account statements, or a cashbook.

The owner recalls the supply categories as **buckets, African fabric wrappers, soap, oil, foodstuffs, and bags**. No amount is assigned to an individual category. The available information does not establish quantities, unit prices, exact expenditure, or a remaining cash balance.

No cash-assistance amount is included in this review note because the owner has not confirmed that cash was distributed as part of this project. This is not a finding that no cash assistance occurred.

Reconciliation status

This note records an owner recollection only. It is not an approved budget or an independently verified expenditure statement. Earlier detailed budget and expenditure claims, item quantities, savings, beneficiary counts, and cash-envelope claims are not supported by the current owner clarification and are withheld from this revised copy.
